

## Universal yet Unique

- Upgrade any cage guided control valve with a trim solution for improved performance and reliability
- Eliminate valve challenges without replacing the whole valve
- Keep pressure boundary parts unchanged
- Keep the actuator and controls
- Customize to operational needs
- Very fast delivery allowing to address issues right away

## Simple yet Powerful

- No onsite modifications needed
- No valve measurements needed
- Plug & Play Upgrade - can be installed in 4h
- Proposal in less than 2 days

Reduced Carbon footprint
